

Faculty Review of Open eTextbooks

The [California Open Educational Resources Council](http://www.cool4ed.org) has designed and implemented a faculty review process of the free and open etextbooks showcased within the California Open Online Library for Education (www.cool4ed.org). Faculty from the California Community Colleges, the California State University, and the University of California were invited to review the selected free and open etextboks using a rubric. Faculty received a stipend for their efforts and funding was provided by the State of California, the William and Flora Hewlett Foundation, and the Bill and Melinda Gates Foundation.

CA Course ID: [SPAN 100](#)

Subject Matter (30 possible points)	N/A (0 pts)	Very Weak (1pt)	Limited (2 pts)	Adequate (3pts)	Strong (4 pts)	Superior (5 pts)
Is the content accurate, error-free, and unbiased?					X	
Does the text adequately cover the designated course with a sufficient degree of depth and scope?		X				
Does the textbook use sufficient and relevant examples to present its subject matter?					X	
Does the textbook use a clear, consistent terminology to present its subject matter?				X		
Does the textbook reflect current knowledge of the subject matter?				X		
Does the textbook present its subject matter in a culturally sensitive manner? (e.g. Is the textbook free of		X				

offensive and insensitive examples? Does it include examples that are inclusive of a variety of races, ethnicities, and backgrounds?)						
---	--	--	--	--	--	--

Total Points: 16 out of 30

Please provide comments on any aspect of the subject matter of this textbook:

- Completely Euro-centric in focus; Spain is the only country discussed, and the only macrodialect covered. The coverage is only about one semester at the collegiate level; not enough for an entire introductory series. It is relevant in topic--ecological sensitivity and tourism--but doesn't cover much else about the culture of Spain, for example.

Instructional Design (35 possible points)	N/A (0 pts)	Very Weak (1pt)	Limited (2 pts)	Adequate (3pts)	Strong (4 pts)	Superior (5 pts)
Does the textbook present its subject materials at appropriate reading levels for undergrad use?			X			
Does the textbook reflect a consideration of different learning styles? (e.g. visual, textual?)					X	
Does the textbook present explicit learning outcomes aligned with the course and curriculum?				X		
Is a coherent organization of the textbook evident to the reader/student?				X		
Does the textbook reflect best practices in the instruction of the designated course?		X				
Does the textbook contain sufficient effective ancillary materials? (e.g. test banks, individual and/or group activities or exercises, pedagogical apparatus, etc.)	X					
Is the textbook searchable?					X	

Total Points: 17 out of 35

Please provide comments on any aspect of the instructional design of this textbook:

- Very easy to use, and highly interactive. Utilizes a great UI to connect video with gamification learning strategies. The outcomes, while very, very conversational, are there. But the pedagogy is highly outdated; it uses a translation model of pedagogy, and focuses almost exclusively on the learning of phrases. There are no ancillaries. It is searchable.

Editorial Aspects (25 possible points)	N/A (0 pts)	Very Weak (1pt)	Limited (2 pts)	Adequate (3pts)	Strong (4 pts)	Superior (5 pts)
Is the language of the textbook free of grammatical, spelling, usage, and typographical errors?					X	
Is the textbook written in a clear, engaging style?					X	
Does the textbook adhere to effective principles of design? (e.g. are pages laid out and organized to be clear and visually engaging and effective? Are colors, font, and typography consistent and unified?)					X	
Does the textbook include conventional editorial features? (e.g. a table of contents, glossary, citations and further references)	X					
How effective are multimedia elements of the textbook? (e.g. graphics, animations, audio)					X	

Total Points: 16 out of 25

Please provide comments on any editorial aspect of this textbook.

- Free of errors, and the media works on all multiple platforms. The design is engaging and fun. It should be noted that the 'textbook' really isn't a text; there are a series of videos that introduce scenarios, explain vocab and grammar (such that it is), and give exercises and some instruction.

Usability (30 possible points)	N/A (0 pts)	Very Weak (1pt)	Limited (2 pts)	Adequate (3pts)	Strong (4 pts)	Superior (5 pts)
Is the textbook compatible with standard and commonly available hardware/software in college/university campus student computer labs?					X	
Is the textbook accessible in a variety of different electronic formats? (e.g. .txt, .pdf, .epub, etc.)					X	
Can the textbook be printed easily?					X	
Does the user interface implicitly inform the reader how to interact with and navigate the textbook?					X	

How easily can the textbook be annotated by students and instructors?	X					
---	---	--	--	--	--	--

Total Points: 16 out of 30

Please provide comments on any aspect of access concerning this textbook.

- UI is intuitive and engaging, with multiple ways to access the lessons. It is also highly adaptable for the user, depending on what is required. Can easily print the materials and practices.

Overall Comments

If you were to recommend this textbook to colleagues, what merits of the textbook would you highlight?

- The gamification strategy is well presented, and the material engages the user completely. It is good if someone wanted to learn basic conversational Spanish on their own.

What areas of this textbook require improvement in order for it to be used in your courses?

- The technology is highly commendable, but the pedagogy and the methodology are not at all recommendable. It is only for those who want conversational Spanish at the very basic level, and does not cover with any depth the language that a typical first-year text would. The reliance on translation is highly out of date with current practices, and the Spain-centric focus is not recommendable for most in North America.
